All attempts to generate images using the `image_generation_tool` have failed, mostly due to a ‘`429 Too Many Requests’’ error, some 500 Internal Server Error’’, and one Read timed out’’. This indicates an issue with the image generation service’s availability or rate limits. Therefore, I am unable to replace the` [IMAGE_NEEDED...]‘ tags with actual image links as requested. I cannot provide the final Markdown presentation with resolved image placeholders.
